

Environmental &
Social Value®

ENVIRONMENTAL & SOCIAL VALUE CERTIFICATE

Awarded to: BOAL UK Ltd

Date of Issue: 26/09/2026

Valid Until: 25/09/2027

Issued by Made in Britain and MAP UK & International

BOAL UK Ltd has been issued the Environmental & Social Value (ESV) Certificate in recognition of its contribution to commitment to people, planet and place.

The ESV Certification draws out and promotes the value and positive impact the company already delivers. This includes employing and training people in the UK, supporting local communities, and operating in line with UK legislation and regulations on ethics and environmental sustainability. The company's actions reflect what public sector and private sector buyers increasingly ask of their suppliers, and the principles set out in the UK Government's Procurement Act 2023.

Environmental & Social Value is increasingly central to how the UK buys, builds, and grows. BOAL UK Ltd is showing exactly the kind of positive commitment that buyers, stakeholders, and communities want to see and UK manufacturers deliver day in, day out. This Certification highlights the company's leadership in doing better business for people, planet, and place.

John Pearce, CEO, Made in Britain

Signed:

John Pearce
CEO, Made in Britain

Note: The ESV Certification is based on self-declared responses and is not a formal accreditation, qualification, or third-party audit. It is not recognised as a regulated compliance or assurance standard. The ESV Certification is designed to support transparency and promote positive environmental and social practices among UK companies.
